These annexes consist of a tot	al of sheets		
3. This report contains indications relat	ing to the following items:		
I Basis of the report			
II Priority			
III Non-establishment o	f opinion with regard to nove	lty, inventive ste	ep and industrial applicability
IV Lack of unity of inve	ention		
V Reasoned statement of citations and explana	under Article 35(2) with regations supporting such statem	rd to novelty, in ent	ventive step or industrial applicability;
VI Certain documents ci	ited		
VII Certain defects in the	e international application		
VIII Certain observations	on the international applicat	on	
Date of submission of the demand		Date of completion of this report	
06 February 2001 (06.02.01)		25 September 2001 (25.09.2001)	
Name and mailing address of the IPEA/JP	Auth	orized officer	
Facsimile No.	Tele	ohone No.	

International application No.

PCT/JP99/06883

I. Basis	of the report
1. With	regard to the elements of the international application:*
	the international application as originally filed
	the description:
	pages, as originally filed
	pages, filed with the demand
	pages, filed with the letter of
	the claims:
	pages, as originally filed
	pages, as amended (together with any statement under Article 19
	pages, filed with the demand
	pages, filed with the letter of
	the drawings:
	pages, as originally filed
	pages, filed with the demand
	pages, filed with the letter of
<u> </u>	te sequence listing part of the description:
' لـــا ا	
	pages, as originally filed pages, filed with the demand
	pages, filed with the demand pages, filed with the letter of
	, filed with the letter of
the ir	regard to the language, all the elements marked above were available or furnished to this Authority in the language in which ternational application was filed, unless otherwise indicated under this item.  elements were available or furnished to this Authority in the following language which is:
	the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
	the language of publication of the international application (under Rule 48.3(b)).
	the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/
	or 55.3).
3. With	regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international ninary examination was carried out on the basis of the sequence listing:
<u> </u>	contained in the international application in written form.
	filed together with the international application in computer readable form.
H	furnished subsequently to this Authority in written form.
H	
	furnished subsequently to this Authority in computer readable form.
	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
	The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
4.	The amendments have resulted in the cancellation of:
	the description, pages
	the claims, Nos.
	the drawings, sheets/fig
5.	This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
	cement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to sreport as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16 ).17).
	placement sheet containing such amendments must be referred to under item 1 and annexed to this report.

#### INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/JP 99/06883

V.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
	citations and explanations supporting such statement

Statement			
Novelty (N)	Claims	1-4	YES
	Claims		NO NO
Inventive step (IS)	Claims		YES
	Claims	1-4	NO
Industrial applicability (IA)	Claims	1-4	YES
	Claims		NO

#### 2. Citations and explanations

Document 1: JP, 10-91305, A (Toshiba Corp.), 10 April 1998 (10.04.98)

Document 2: JP, 11-65751, A (Fujitsu Takamizawa Component K.K.), 9 March 1999 (09.03.99)

Claim 1 does not involve an inventive step in the light of Document 1. Document 1 discloses an invention wherein, when the pressure reception part of an input sheet is pressed down, the force generated is converted into vertical force, and unnecessary force, which is all force other than the vertical force, is dispersed through pressure deformation.

Claim 2 does not involve an inventive step in the light of Document 1. The input sheet disclosed in Document 1 is arranged on a touch panel.

Claim 3 does not involve an inventive step in the light of Document 1. A person skilled in the art could easily conceive of using the input sheet disclosed in Document 1 in place of a cover part in an information processing device.

Claim 4 does not involve an inventive step in the
